

# Nightly rust install instruction

- 1) Download "rustup-init.exe" <https://rustup.rs/>
- 2) Run it and follow instructions below

 C:\Users\ryuu\Downloads\rustup-init.exe

```
The Cargo home directory located at:

  C:\Users\ryuu\.cargo

This can be modified with the CARGO_HOME environment variable.

The cargo, rustc, rustup and other commands will be added to
Cargo's bin directory, located at:

  C:\Users\ryuu\.cargo\bin

This path will then be added to your PATH environment variable by
modifying the HKEY_CURRENT_USER/Environment/PATH registry key.

You can uninstall at any time with rustup self uninstall and
these changes will be reverted.

Current installation options:

    default host triple: x86_64-pc-windows-msvc
      default toolchain: stable (default)
          profile: default
  modify PATH variable: yes

1) Proceed with installation (default)
2) Customize installation
3) Cancel installation
>
```

2

```
The cargo, rustc, rustup and other commands will be added to
Cargo's bin directory, located at:

  C:\Users\ryuu\.cargo\bin

This path will then be added to your PATH environment variable by
modifying the HKEY_CURRENT_USER/Environment/PATH registry key.

You can uninstall at any time with rustup self uninstall and
these changes will be reverted.

Current installation options:
